SUNDAY, MAY 28, 1878.

NEWS OF THE MORNING.

A San Francisco dispatch states that at Oakland on Friday evening there was a meeting of Chinese, several thousand being present, including delegates from that city and neighboring towns.

The public schools in San Francisco were closed on Friday for the centennial vacation, which lasts until July 10th.

Bernal Heights, the scene of the recent quarts discovery, was visited on Friday by a large number of people, including many California street men. Several additional claims have been staked out, and work will be at once commenced on some of them to test the question. The whole neighborhood is in a state of excitement.

The New York Sun publishes a letter dated August 2, from James G. Blaine to Warren Fisher of Boston, offering for \$25,000 to procure for Fisher the one hundred and ninety-second part of the entire franchise of the Northern Pacific Railroad, including the Land Company's stock.

One hundred and fifteen thousand dollars were sent to Europe from New York on Friday.

A Washington dispatch states that in the House, Lord, from the Judiciary Committee, reported the bill originally introduced by Piper of California, amending the revised statutes so as to make the fees of Clerks of the United States Courts the same in California as in other States, which was passed.

Mark Twain will preside at the opening of the California building.

The Illinois delegates to the Cincinnati Convention will not vote for Blaine. A soft money plank in the platform of that State kills him.

Speaker Kerr does not propose to answer the charges preferred against him unless an investigation is ordered.

The will of A. T. Stewart is to be contested. There are a number of contestants and the case is in the hands of the lawyers.

A London dispatch states that the Court Circular has advised that the Prince of Wales is suffering from inflammation of the veins of the leg, and will be compelled to keep in the house for some days. One of the rumors circulating on the Stock Exchange says that this attack is more serious than the announcement indicates.

A Berlin dispatch says: Herzegovinian leaders held a meeting on the 23d, having been informed what the principal propositions of the Berlin Conference were. They determined to continue the war until the independence of Herzegovina and Bosnia is secured.

A telegram from Belgrade says there has been serious fighting in Bulgaria. The Turks have hanged several Chiefs and Priests at Plovdiv. It is also rumored that there has been a general massacre of Christians in that neighborhood, and the insurgents are flying to the mountains.

The Porte intends to call out all the reserves and make an effort to suppress the insurrection. It is rumored that the Sultan, on hearing that the cash in the treasury was not sufficient to meet the expenses of the public debts, he proposed to advance the necessary funds from his private funds.

The Emma Mine committee reported yesterday and submitted the following resolution and unanimously recommended its passage by the House: Resolved, that this House condemns the action of R. C. Schenck, U. S. Minister at the court of St. James, in becoming director of the Emma Silver Mining Company, and vendors thereof, as ill-advised and unfortunate.

Commissioner Ratch, accompanied by Congressman Piper, had an interview with Secretary Fish Friday on the Chinese question. The Secretary repeated the assurance he had heretofore given as to his desire to aid in securing remedies for the evils complained of, but added that the Chinese question had met opposition to the movement. He said the religious element of the country is now agitating the subject and urging a continuance of the present tariff on account of its presumed value in facilitating missionaries for the conversion of the heathen. He said there was also opposition from owners of American vessels plying in Chinese waters, but he thought nevertheless, the treaty should be modified.

The Senate Chinese Commission reconvened in San Francisco Friday, all present except Hammond. F. L. Gordon testified at length concerning the offering of rewards for the assassination of Chinese parties by the Chinese. He mentioned several cases in which men had been killed for rewards and women black-mailed, cut and killed. A price had been offered for witness' life for enforcing the payment of a debt given him for collection from a Chinese firm.

Judge Myrick, of the Federal Court, in San Francisco, yesterday appointed W. L. Palmer of Palmer, Knox & Co., guardian for Mamie Whiting on the ground that her mother was an unfit person to have control of her, being engaged in an attempt to deprive her of her property, and also consented to her bigamous marriage with Jones.

In the United States Circuit Court at St. Louis Friday judgment was given for the Government in the case of W. R. Jovett for \$27,000. The case of Louis Tonscher, for \$5,000 is progressing and will no doubt be decided in favor of the Government. In addition to these suits, claims against a large amount of high wines captured at the time of the seizure of the distilleries and rectifying houses a year ago, were withdrawn and the spirits will pass into the hands of the Government. The bonds in the above cases are good and it is believed the Government will collect the entire amount which the high wines are worth. The high wines mentioned will run up to the aggregate of over \$500,000.

RECENTLY a game of poker in Washington between two of our politicians and a member of a London banking firm resulted in leaving \$140,000 in the hands of a "sport." The game lasted thirty-six hours.

THE Democratic party is prolific, and the pedigree of all new shining lights should be made known. We learn that the Hon. JOHN M. PALMER of Illinois, a man whom many expect to be the dark horse, is fifty-nine, was a cooper, peddler, teacher and lawyer, supported Van Buren, opposed the Nebraska bill, was in 1856 President of the first Illinois Republican Convention, personally preferred Fremont but supported McLean, voted for Fremont and Lincoln, was a member of the Peace Congress, was a Union division commander, was made Major General, was for four years Governor of Illinois, and in 1872 left the Republicans.

Let the Truth be Told.

The San Francisco Chronicle, an exchange that we credit with enterprise, so often makes stupendous blunders that it is a difficult matter to capture them all. Commenting on the Democratic State Convention it is remarkable that all of the office holders were present, and controlled the body. If this were true, can there be any tangible objection produced to indicate that this was not in accordance with the rule always adopted by the Republican party? If a Republican convention were held when Congress was not in session, who appear as the ruling its, but BILLY CARR, AARON A. SARGENT, MARCUS BOURCK, GEORGE C. GORHAM and others who are blest with the privilege of holding either office or remunerative positions under the party as factotums. The system adopted by all political parties is the same, and it is but natural that those who are the chosen leaders of any party should come to the front when a vigorous campaign is inaugurated. The slurs of the Chronicle are as ungraceful as illogical, and when it remarks that proceedings showed the ascendancy of the "noisy muscular element over the brains and respectability of the body," is simply exhibiting the cloven foot. The issues of the present campaign are peculiar, and of vital importance to those who are sometimes termed the middle and lower classes. Indeed, while this remark is made, it may be suggested that this portion of our population cannot be affected for good or ill without an injury to every branch of our community. Sneers from a mercenary journal amount to nothing really, yet, as the saying goes, a mad man may kill and a fool throw dirt. The Democratic party has a work to accomplish which it proposes to complete. That is a renovation and a reconstruction of our political system. It is natural to suppose that in a time when corruption is rampant, the party in power, under whose administration frauds have been committed would object to both a change of authority or investigation. The criminal always dreads the hangman's noose, and the Radicals dread investigations. The fact that the officers of the Democratic party were present at the Convention signifies nothing more than that they were attending to their legitimate office. That was their post of duty. No logical objection can be made to their action. It appears that the Convention was harmonious, that its purpose was correct, and in all respects the entire action of the body shows that harmony will prevail in its ranks.

A Proper Action.

We quote the following from the *Alta California*, and although differing in politics from Mr. SARGENT, we give him credit for what he is doing in behalf of the people on the Chinese question. The following is an honest presentation of the case as it stands at Washington. The *Alta* speaks thus: "It is well known that a concurrent resolution, recommended for passage by the House Committee on Commerce, requests the President to negotiate for an additional article in the BURLINGAME treaty, substantially as follows:

The United States of America do hereby reserve the right to regulate, restrict or prevent the immigration of Chinese subjects into the United States, except for commercial purposes; and reciprocally the Emperor of China reserves the right to regulate, restrict or prevent immigration of citizens into the Empire of China, except for commercial purposes.

Both PAGE and PIPER say that the Committee would have consented to report the resolution without the clause allowing Chinese immigration for commercial purposes, but they believed its adoption by Congress in this form will accomplish the desired purpose, as it evidently contemplates a strictly commercial convention, and they have no doubt that Secretary Fish will cause unmistakable language to be inserted in the article, and guard against all misconstruction. Senator SARGENT, on the other hand, emphatically expresses the opinion that the passage of this resolution would be a positive obstacle instead of a help to the attainment of relief from the present troubles. He believes it would be construed to cover Coolie immigration to an extent practically unlimited, and calls attention to the fact that it certainly would prevent the enactment of his bill, which provides that no more than ten Chinese passengers shall be admitted on any one vessel. It is his purpose to press this bill, and also his pending resolution for a radical change in the treaty, as soon as the Senate resumes consideration of legislative business, now checked by the impeachment trial. We believe Mr. SARGENT is right, and trust that he will push the matter through to a satisfactory result. All of the representatives of the Democratic party are in accord with Mr. SARGENT upon this measure, and his co-operation with him in the good work will be as energetic as it is spontaneous. We are glad to express an harmonious sentiment, and in one respect be in accord with our contemporary.

Nothing More nor Less than Subsidy.

A San Bernardino paper charges the HERALD with misrepresentation in stating that Colonel SCOTT asks the government to subsidize the Texas Pacific railroad to the amount of three hundred and fifty million dollars. The assertion of Colonel SCOTT that he does not ask for subsidy is brought forward as evidence to prove us guilty of the charge preferred. We shall enter a plea of not guilty and proceed to show in a single sentence that no

matter what Colonel SCOTT states, his bill asks for three hundred and fifty million dollars subsidy to the Texas Pacific road. He does not demand a direct removal of this sum of money from the Treasury of the United States into his own pocket. Knowing as he does that no such demand would be acceded to he is too wily and too politic to make it. But he seeks to accomplish the same end by a roundabout circuitous process intended to mislead and deceive the people. This is the way the shrewd Colonel puts it: The government shall pay the interest on the bonds and this interest amounts to three hundred and fifty million dollars. Now the point to be settled and we leave the settlement to the Texas Pacific party and their advocates, is, is there a difference except in amount between paying the interest on bonds and paying the bonds themselves? It is urged as something remarkable that SCOTT proposes to give the road as security for the repayment of the interest money he asks the people to advance. But when we remember that all subsidized railroads do precisely the same thing it is somewhat difficult to perceive the remarkable feature of the Colonel's proposition.

The North and South.

We can but take a text from our contemporary, the *Examiner*, and following its arguments, with which we in general agree, must suggest that on the question of reconstruction, the movement and its results, there can be but one opinion among those who are at all conversant with the facts of the surroundings immediately after the war. At the surrender of General LEE, President LINCOLN adopted a pacific policy, and had he lived to carry it out there would have been no such reconstruction measures adopted as have rendered the word "Union" emphatically a misnomer. The policy that would have guided the nation would have been kindly and just. ANDREW JOHNSON endorsed the policy of the President, and because of his doing so, fell from grace in the eyes of the Radicals; but stood firm after all in his original Democratic belief. He was a man of the people, and worked in every sphere of his experience for the people. The *Examiner* remarks that, "The leading papers of the Radical party are making a deliberate effort to re-open the sectional issues settled in 1874 and during the Winter of 1875. Some of them rehearsing old stories disproved by their own special correspondents, assert that it will be necessary to renew the work of reconstruction, and forge a fresh code of coercive laws to replace those which have been tried and have failed. Nothing definite is set forward in regard to these penal enactments, but probably something like the infamous Force Bill brought before the last Congress would please the fancy of those who desire to see eleven American States reduced once more to a condition of tutelage." There is some truth in this, and if there is anything in the signs of the times, it is quite evident that another Republican national victory will only tend to make the condition of affairs in the South more unendurable than ever. We cannot forget the scene at Lexington and Concord a few months since, when General FORREST so gracefully returned to the military authorities the flag that he captured from the Massachusetts regiment, nor can we forget the cordial greeting given by the Fifth Massachusetts regiment to the Fifth Maryland, nor the generous benediction given by the people of Boston to General FORREST when he retired from the headquarters of Radicalism. These incidents do mean something, and we feel quite confident their effect will be felt in the forming of a popular sentiment during the coming campaign, and we can but think that the efforts of the Radical extremists to re-open dead issues will prove so nauseating that they will end in an emphatic failure. We have too much faith in the sense of our people to believe that the extravagant policy of the Radical party will avail much. There is a solid logic in the popular mind that will show itself when emergencies arise, and we expect to find it in the coming campaign.

Messrs. MOODY and SANKEY have done a wonderful amount of good at the East, and have earned all of the money they have received. They believe in HORACE GREELEY and after completing their work among the unchristianized East of the Mississippi have gone West. The last we heard of them they were in Kansas City—a good field for labor. They have brought many sinners to repentance, and furnished some inmates for the lunatic asylum. The amount of good they have done more than equals the harm that has ensued from their efforts.

The New York Herald propounds the conundrum—Is Bishop SIMPSON the "Great Unknown?" Now the Bishop is without exception the most eminent and able protestant divine in the country, and is the acknowledged head of the Methodist church; ambitious of course, but heaven forbid that any clergyman should ever occupy the White House. Religion should never be debased by the contaminating surroundings of politics.

The Omaha Herald says that "Captain A. L. PATRICK has seven pounds of Black Hill's gold, that resembles the specimens brought from Colorado in 1859 after a whole army of Pike

Peakers returned swearing that there was no gold in the country and wanted to hang W. M. BYERS of the Denver News and SAM CURTIS for having so reported.

PACIFIC COAST.

For Los Angeles.

CALIENTE, May 27th.—The Telegraph Stage on time with the following passengers for Los Angeles: Jas. Keir, E. Meyer, J. Harford, A. W. Holmes, A. Ewan, S. Owens.

Stage arrived on time last eve from the South, made close connection with the train going North.

SAN FRANCISCO NEWS.—SAN FRANCISCO, May 27.—In the 3d District Court to-day Theodore Leroy filed a complaint against the Spring Valley Water Company and Alameda Water Company. The complaint alleges that William C. Ralston, Chas. Webb Howard, Charles S. Felton and J. M. Reiter, who control a majority of the Alameda Co's stock, conspired to obtain control of the Spring Valley Water Co., with a view to selling the same for a price exceeding its value and for their own private use of the property.

Companies, to the city. Charles Haskell, who is also a defendant to the suit, and who owned lands bordering on Alameda Creek, delivered the right of the same to Ralston with the understanding that on giving information of the same he would receive \$50,000 worth of Spring Valley stock. E. H. Dyer, Deputy Surveyor General, also it is alleged, in consideration of \$50,000 worth of stock, unlawfully gave Ralston and his associates information with regard to the water supply of the company and made a contract transfer to them certain mountain lands in Calaveras. Chas. McLaughlin, grantee of the Western Pacific Railroad entered into a similar contract, it is alleged, in view of a prospective acquisition of \$10,000 worth of stock. Ralston, it is then alleged, bribed a majority of the Board of Supervisors with \$5,000 each to elect T. R. Scowden, who was a mere creature, it is said, in Ralston's hands, and who was to report upon various supplies of water. Agreeably to this contract Scowden was elected, and in consideration of the same he reported favorably to the water supplies to which McLaughlin, Haskell and Dyer held the title. Subsequently, it is alleged, Ralston procured the election of a Board of Trustees of the Spring Valley Company, and succeeded in selling that company for \$1,600,000 the franchise of the Alameda Water Company, which was not worth \$10,000. In consideration of these alleged frauds the Court is petitioned to declare the acts of the Trustees elected in December, 1874, null and void, and to restrain from disposing of any of the \$1,000,000 of bonds issued for the purchase of the Alameda Company's works, and that they be canceled; also, that the claims of innocent bondholders, of whom plaintiff claims to be one, be satisfied out of the proceeds of the sale of the Spring Valley Water Company.

EASTERN NEWS.

Killed by Indians.—LINCOLN, Neb., May 27th.—Private advices say the company of adventurers from Cincinnati, which passed through here a month ago, known as Comstock's squad, were attacked by Indians near Gustar City a few days ago and eleven out of twenty-two killed. They were the sons of wealthy Cincinnati men, and went on the trip more for a frolic than anything else.

Slave Emancipation in Cuba.—WASHINGTON, May 27th.—The last advices received from the Department of State relative to the emancipation of slaves in Cuba were very favorable. The advices show that the Colonial Government was carrying out in good faith, and as fast as practicable, its pledges regarding emancipation. The reply of Secretary Fish to Secretary Dwyer's last note was despatched by steamer leaving New York Thursday.

The Mustang Rider.—NEW YORK, May 27th.—Geo. Parker has so far recovered from the effects of his late ride that it is announced that he will next Thursday attempt to ride three hundred miles with thirty mustangs in fifteen hours at Fleetwood Park. The race will commence at 4 A. M. and end at 7 P. M.

Merchants in Council.—NEW YORK, May 27th.—A preliminary meeting of merchants, sugar refiners and coffee dealers was held in Wall street to-day to devise means for the protection of the business between New York and the West, which business is carried to Boston in consequence of the prohibitory action of the managers of railroads leading out of this city. It was shown that the merchants of Boston were enabled to have their freight transported to Chicago and principal points West at rates ranging from 25 to 50 per cent. below the tariff charged from this city. A committee was appointed to prepare a report on the subject to be presented to a general meeting to be held Monday next.

Turkey—Fleets for the Bosphorus.—WASHINGTON, May 27th.—The Government official services of the recent meeting at Berlin of the representatives of Russia, Germany and Austria, and of the revolutionary condition of affairs in Turkey, but the official advices do not differ materially from dispatches published in the newspapers. It seems that the same statement regarding the conference at Berlin was given to the press and to the representatives of foreign governments, except, perhaps, the representative of England, which country was asked, earnestly to join in carrying out the plans adopted at the conference. The fact that England's envoy promptly rejected the plan and immediately ordered a formidable fleet to Bosphorus, which place is to be immediately strengthened, is regarded in official circles here as indicating great danger to Ottoman Empire if the plan adopted is carried out, unless the governments of England, France and Spain continue to prevent it. It is understood here that France, Spain and Italy will send

their fleets to the Bosphorus at once, whatever may be their final destination as to which side of the question they may espouse. This Government has no advices as yet from the American Consul at Salonica regarding the recent massacre at that place. As soon as the massacre became known at Nice, Rear Admiral Warden, commanding the U. S. European fleet, proceeded at once in his flag-ship, the Franklin, to Salonica to look after the interests. The other ships of the fleet were ordered to follow. After looking into affairs at Salonica, the fleet will proceed to Bosphorus to look after and protect the American interests in that quarter. The Government is without any official advices relative to the proposition said to have been made by the Colonial Government of Spain to pawn the custom revenue of Cuba, and British capitalists, in order to raise funds to suppress the revolt in that island, even if true, and the result should be the perpetuation of African slavery in Cuba, this Government cannot interfere to prevent it.

The Case of Winslow.—WASHINGTON, May 27th.—The decision of the Government not to prosecute Lawrence on charges other than those for which he was extradited, and to which he has pleaded guilty is the action of the Department of Justice alone and can have no significance in connection with the controversy over the Winslow case, except such as may be given by the British Government, and should it accept the decision as equivalent to a plea of guilty on the part of this Government that Winslow will not be tried for the charges other than those on which his extradition is asked.

Case of Davenport.—NEW YORK, May 27th.—The Congressional sub-committee investigating the Department of Justice in this city, continued their inquiries to-day at the Astor House. Marshal Fiske testified relative to the appointment and payment of a large number of special Marshals in the election of 1871. Joseph H. Choate, President of the Union League Club, and a former member of the Committee of seventy, explained the relations between that Committee and John J. Davenport. The election of 1871 had cost the Committee of Seventy \$70,000. The Committee paid Davenport for his services \$20,000. The witness knew Davenport received money from the Government and also from private subscription in detail men to prevent election frauds, but this money was not sufficient for the purpose. The Committee were satisfied with Davenport's work and believed he did his best to prevent frauds.

An exchange says: "The crowning of the May Queen passed off very pleasantly in Killingly, Connecticut." We do not remember, just now, any record of a queen mounting her throne dressed in a water proof and a pair of rubbers, with a slice of pork done up in redannel around her throat; but these old historical customs always strike one strangely at first.

Confidence Engine Company should be accorded a fine benefit through their picnic at Washington Gardens to-day. The boys work hard to save our property when occasion requires and we ought to extend them the open hand of generosity.

A Terrible Tragedy at Wood's Opera House.

It is a mystery how they do it, but they sell clothing so cheap at the Great Important, under the Lafayette Hotel.

We are requested to state that the College to which Rev. A. M. Campbell was called as Professor of English Literature is the Pacific Methodist College at Santa Rosa and not St. Mary's College as announced. But Mr. Campbell has no idea of leaving Los Angeles, and was elected to the position without his knowledge.

Ten dollars now-a-days is a great deal of money, and those who doubt it let them go to the Great Important and see what a large quantity of clothing and underwear ten dollars will buy.

Justice of the Peace, W. L. Houghton, acting as Coroner, held an inquest yesterday into the death of William Marion Hutchins, who committed suicide Friday morning at his residence at Los Nietos by shooting himself with a double-barreled shot-gun. It is said deceased was in bad health and had been so for sixteen years. He had often expressed a desire to die, and yesterday morning he got his son to bring him the gun for the purpose of shooting a quail that frequented the yard. Shortly after a shot was heard, and he was found in a dying condition. Deceased was a native of Alabama, and aged 46 years.

The great Centennial Show at Wood's Opera House.

he Council's Tweedledum—A Card from Mr. Potts.

EDITOR HERALD.—Will you please allow me to make a few comments in your columns on the proceedings of our City Council. The reasons alleged in the report on selling water to J. W. Potts and others why they should not grant the request are first: Because the city has heretofore granted water rights to the Woolen Mill; and, second, that people on the Los Felis Ranch take the water when they please; third, if they grant Mr. Potts his rights they will have to grant others theirs; fourth, that they cannot divide the water equally between all who are entitled to it without decreasing the quantity of water used by the dominant party who are already using the water. But I see by the morning papers that they take the authority as city officials to appoint a water overseer on a certain ditch outside of the city limits. And this is not all that our City Council does by arbitrary acts without consulting the laws of justice. They order the water turned out of the public ditch on to my land whenever it suits their convenience, and order a man whom they call Zanjero to go through my land and open my fence at his will, which they have no legal right to do when they have to order him to open my door to go through to the other street. These are some of the proceedings of our City Council, for which, in case of a lawsuit by some party who is determined not to be run over any longer, the tax-payers of the city will have to foot the bill, as in the case of the Felis Ranch and Requena suits, and many other things equally absurd and unjust are done by them, which I will write of at some future time. I do not intend to impeach all of the Council in this article, as some of them are worthy of praise, and ready to do justice to all parties, but as they are in the minority their efforts prove useless.

J. W. POTTS.

The Committee on Fourth of July Celebration have selected the new depot grounds for the day's exercises.

A Jewish holiday commences to-day at sun-down and lasts two days. It is similar to the Christian Whit-sunday.

The rumor that there is small pox in Chinatown is not true. Officer Charles made the tour of the Chinese quarters yesterday and did not find any evidence of the disease.

The fourth quarterly concert of the Baptist Sunday school will take place to-night at the German church on Spring street. A cordial invitation is extended to all. Seats free.

Trinity M. E. church, South, Spring street, between First and Second, Rev. A. M. Campbell, Pastor. Preaching every Sabbath, at 11 A. M. and 7:45 P. M. Sunday school 9:30 A. M. Prayer meeting every Wednesday evening at 7:45.

There will be a confirmation at the Synagogue on Monday, the services commencing at 9 A. M. The confirmands number nine girls and one boy, and the ceremony will interest outsiders as well as members of the faith.

Friday night last at Wood's Opera House, after the close of an act, one of the actors named Murphy had a finger blown off by the premature discharge of an old musket. The musket had been placed against a washstand between the brick and frame parts of the house, but was fortunately discovered by the proprietor and extinguished.

Officer Ryan was promptly on the spot, but got no clue to the fire brand. Officer McCadden arrested a drunk laying on the sidewalk Friday night and on being brought before the Police Judge he gave a false name of Pease, his real name being Pat Ray. This is the same man who advertised to give a lecture in Stearns' Hall and expound Catholicism against the Jews.

Justice Burdick gave him the privilege of paying the small fine of five dollars One man for assault and battery paid two dollars towards the city expenses.

El Monte News.

(From the Observer.)

One hundred sacks of corn were shipped from the Puente Station on Thursday. Puente Station will soon be of sufficient importance to warrant its having an agent.

Monica Stevens, lately a resident of El Monte, absconded on Saturday last, leaving debts in the village to the amount of about \$800. Mr. McLain is the heaviest sufferer, losing about \$300.

Mr. W. C. Bowers was kept pretty lively at the Monte Station on Wednesday, shipping some fifty-six sacks of wool. Mr. Bowers is one of the most energetic, pious taking, and reliable agents on the line.

Our friend Mr. Tucker was so unfortunate as to cripple himself on Wednesday last, by running the tooth of a barrow through his foot. We sincerely hope that he may not long remain disabled.

The gentleman employed in repairing and fitting up the Masonic Lodge Room discovered a swarm of bees, with large quantities of honey, beneath the floor of the hall, and extending downwards through the stud-ding. The bees enter through a crack just above one of the windows.

Everything in the hardware line may be found at the well assorted establishment of Swigart & Huber, Main street, sign of the big coffee pot. Since Mr. Dalton's connection with the house the business has gone forward with a jump. Our friend is an extremely eligible young gentleman, and his time is most taken up in handling out curl-tine to the young ladies who flock there daily. Fort in buckets, brooms and shingle nails call on Mr. Dalton, at Swigart & Huber's.

Mr. E. Laventhal makes his bow to our readers this morning in a double column advertisement. Mr. Laventhal expects to close out his retail stock entirely, and he is selling cheaper than the cheapest. He invites his lady friends to call and learn his prices.

Downey City Items.

(From the Courier.)

Our exports are brightening up a little, the shipments this week having consisted of the following: Corn, 527 sacks, weighing 58,800 pounds; barley, 641 sacks, weighing 57,800 pounds; meal, 210 sacks, weighing 15,680 pounds; merchandise, 2,860 pounds. Total, 133,540 pounds and 700 feet of lumber.

The new time table of the Southern Pacific mail train creates quite a breeze here. It seems that under the new arrangement, the train will pass here, going to Anaheim, about midnight, and returns about an hour afterward. The mail carrier, postmaster and Wells, Fargo & Co's agent object to such early rising.

It is said that some of the wells in the Artesia settlement have failed to flow, and in others the flow is gradually decreasing. Crops and trees of all kinds are looking well, and give promise of abundant yield. One party has ten acres of blackberries doing finely.

The next public social of the Fort street M. E. Church, will be held at the residence of the Pastor, G. S. Hickey, south-west corner of Second and Charity streets, on Wednesday evening next. Singing, readings, etc., will be the order of entertainment. All are cordially invited.

All Sir Knights of the Order of the Red Cross, No. 9, are commanded to meet at their Asylum, Masonic Hall, next Tuesday evening, May 30, at 7 o'clock sharp, for work in the Order of the Red Cross. Sojourning Sir Knights in good standing are courteously invited.

A powerful iron press, the property of Mr. Mathias Keller, and formerly used by him while experimenting in the tobacco business, will probably be purchased by Messrs. McGregor and Perkins for their tobacco factory. The machinery at Mr. Temple's ranch will also be needed.

The concert of the young ladies of Los Nietos Institute, on Wednesday evening last, was attended by a very large audience, who were astonished and delighted at the vocal and instrumental treatment provided. Some of the performances evinced a high order of talent, and all were faultlessly rendered.

We were shown this week specimens of the tobacco, grown on Messrs. Perkins & McGregor, which it is designed to send to the Centennial. Some 10 or 12 pounds will be carefully prepared and sent forward, consisting of Havana and Connecticut leaves, bright and dark wrappers. Some of this tobacco was grown here and some at Costa. It is the choicest of last year's crop, and possesses a peculiarly rich and spicy flavor.

The attention of the public was considerably aroused yesterday by the exhibition of a ten or twelve foot long cannon, which was hauled up on Third street to be put in order for use on the Fourth of July. This rusty old piece of ordnance has quite a history. It was doubtless been cast in Spain long before any of the present generation saw the light of day. Mr. A. S. Beard, an old resident of Los Angeles, informs us that it was discovered on the site of the old fort in Los Angeles, the rains having washed away the powder which it contained, and the Mexicans, doubtless to prevent it from falling into the hands of the Americans. It was used in Los Angeles to fire a salute on the occasion of the election of Franklin Pierce to the presidency in 1852. Some time afterward an incident occurred at a ball given by one of the leading citizens of Los Angeles, which resulted in this same cannon being dragged up in front of the house where the ball was going on, and fired to cause a disturbance of the festivities, so to speak. A fight followed, and the result was the death of three or four persons. The next appearance of the old thunderer is said to have taken place in this city at a time when a conflict between the United States authorities and early Mormon settlers seemed imminent. The representatives of the United States are said to have double shot the grim looking weapon, a proceeding which was checked by some of the other side driving a rat-tail file into the vent, thus effectually spiking it. It is said it was then thrown into a well where it remained in the hands of our second century's existence as a nation. May it serve the occasion well, and never be used for any more warlike or less pleasant purposes.—San Bernardino Times.

THE SINGER.

No words of commendation are necessary for the old favorite Singer Sewing Machine, which may be found in nearly every well regulated household in the land. In point of manufacture and finish it cannot be excelled, and all of the latest improvements and attachments are incorporated and adapted to it. The mechanism is the most simple and durable; the easiest regulated and the least liable to get out of order. Everybody who has tried the machine speaks enthusiastically in its favor, and this fact accounts for its immense popularity and the many thousand machines which are annually turned out from the manufactory. Messrs. Dook & Lu far are agents for this city; office No. 25 Spring street. may28-1w

Anti-Chinese meetings are all the go now, and ere many days this question of Chinese immigration must be settled. Get up a delegation, a party of ten, and send them to Washington; but in order to insure success our advice is, let them all go to the Great Important, under the Lafayette Hotel, and get their clothing, as this is the place to get nobby and cheap clothing, cheaper than any house in San Francisco.

Confidence Engine Company No. 2 has engaged the services of Prof. Rice to give some of his astonishing mind readings at Washington Gardens tomorrow during the picnic. The exhibition will be given in a large tent on the grounds specially prepared for the Professor. In connection with the mind reading there will be vocal and instrumental music and the Marionettes. m27-1f

"Oh, kill me quick, for I am too sweet to live." These were the remarks of a happy man, who was overjoyed after purchasing one of those stylish and cheap suits at the Great Important, under the Lafayette Hotel.

NEW ADVERTISEMENTS.

REASON WHY

—THE—
REMINGTON FAMILY SEWING

MACHINES

Are Superior to All Others.

FIRST—THEIR SIMPLICITY.

The use of them is very easily acquired, and any
girl of ordinary intelligence is capable of
keeping them in order.

SECOND—THE CONSTRUCTION

of the Machine is such that it may be run at a
higher rate of speed than any other Ma-
chine now in the market. In fact, they are
the rate of speed has been registered, over

1,000 Stitches per Minute

have been attained with ease.

THIRD—THEIR DURABILITY

being so strong in all their parts and fitted
with great mechanical nicety, and being free
from the harsh jarring movements and rick-
so common in inferior machines they will
wear a long time without need of any kind.

FOURTH—THEIR ADAPTABILITY.

By a simple change of the needle and thread
they will sew the finest cambric or the heavy-
est leather.

FIFTH—THEY HAVE NO ROTARY CAMS,

Cog-wheels or lever arms to make a noise, run
hard, or to get out of order.

SIXTH—THEY HAVE AN ADJUSTABLE

Feed which may be raised or lowered at pleas-
ure.

SEVENTH—ALL THEIR MOVEMENTS

are positive and they cannot be thrown out of
time.

Manufactured by the Largest Manufacturing
company in America, possessing a world-
wide reputation in the manufacture of their
instruments, they afford a guarantee of perfec-
tion in work and construction.

No other sewing machine has ever been in-
troduced so quickly and met with such rapid
sale as the

REMINGTON

It arouses the jealousy, opposition and per-
sistent misrepresentation of the other Sewing
Machine Companies through their agents,
and even the old Singer Company, through
its agents, who devote the largest part of their
advertisements to show that it is not an improved
Singer, and that its calculations are upon a
false basis.

"With malice toward none and charity for
all," it will be the aim of the agent of the

Remington Sewing Machine

to afford to all an opportunity of testing
merits with those of any other, and let them
make their own selection.
